Install your software

Before you install, close all applications currently running on your system—including other Adobe applications, Microsoft Office applications, and browser windows.

Windows:

- Insert the DVD in your drive, and follow the on-screen instructions. If the installer does not launch automatically, navigate to the Adobe Director 11.5 folder found at the root level on your disk and double-click Setup.exe to start the installation process.
- To install software downloaded from the web, follow these instructions:
 1. Double click the downloaded executable file.
 2. In the Install Adobe Director 11.5 dialog box, change the path to C:\ or C:\Director.

Note: Do not use the default path in the dialog box. You cannot run setup.exe if the files are downloaded to the desktop, or any other path with a double-byte path name.

Mac:

- Insert the DVD in your drive, double-click *Install Adobe Director 11.5*, and follow the on-screen instructions.
- If you downloaded the software from the web, double-click *Install Adobe Director 11.5*, and follow the on-screen instructions.

Note: In order to reinstall your software after your original installation, you will need access to the original installer (CD, DVD or the download from the web). Before you begin reinstallations, please make sure the installer is in the same drive or location it was during the original installation.

Uninstall your software

1. Before you uninstall, close all applications currently running on your system—including other Adobe applications, Microsoft Office applications, and browser windows.
2. Do one of the following:
 - In Windows, open the Windows Control Panel and double-click Add or Remove Programs. Select the product that you want to uninstall, click Change/Remove, and then follow the on-screen instructions.
 - IMPORTANT: Mac OS has new uninstall functionality. DO NOT drag

applications to the trash to uninstall them. To safely uninstall on Mac OS X, double-click the product installer in Applications\Utilities\Adobe Installers. Authenticate as an administrator, then select Remove Components and follow the on-screen instructions.

Purchase from a trial

- Choose Activate from the Help menu and follow the on-screen instructions.

Electronic licensing

Adobe software may include electronic license (e-license) management technology to ensure compliance with the Product License Agreement. When present, this technology prompts you to verify the license of your product within 30 days after you start it for the first time. If prompted, verification is mandatory.

The on-screen prompt may ask you to activate the software. This verification process does not collect, transmit, or use any personally identifiable information. To learn more, visit the Adobe web site at <http://www.adobe.com/activation>.

Activate software:

1. If the Activation dialog box is not already open, choose Help > Activate.
2. Follow the on-screen instructions.

Note: If you want to install the product on a different computer, you must first deactivate the software on your computer. To deactivate, choose Help > Deactivate.
